What's Happening in Your District

The District Property Management Department is coordinating with Rainey Construction to mill and overlay the Villa roads in VCDD No. 5 and 6 that were not previously completed. The work is scheduled to begin on January 16, 2017 and continue through June 2017.

The District will deliver notices to each home that will be impacted by the work approximately 7-10 days in advance, in addition to placing informational signs at the entry and exit of each villa which will include the anticipated start and end date of the project.

The timeline may be adjusted due to unforeseen circumstances, including weather. If the timeline is adjusted, the informational signs at the villa entry and exits will be updated.

The District thanks you in advance for your cooperation to ensure this is a successful project, and encourages you to adhere to the instructions that you will receive in the future.
