Multi-Modal Tunnel Closure

The multi-modal path tunnel located under Buena Vista Boulevard at the Saddlebrook Recreation Center is currently closed for stucco repairs. This work began on Monday, August 14, 2017 and is anticipated to take approximately 4 weeks. Please use caution in this area and follow the directional signage to the tunnel at Belvedere Boulevard for crossing under CR 466. If you have any questions or need additional information, please contact District Property Management at (352) 753-4022.

Storm Water Management

To ensure adequate capacity of the storm water management system throughout the community, the District will be lowering certain water retention areas that are above recommended levels. The water level is being lowered to ensure there is sufficient capacity in the water retention area to capture water run-off from streets, yards and golf courses in preparation of future rain events. To lower the water level in water retention basins, irrigation systems will run along common areas and roadways throughout the community. The water being utilized through the irrigation system is storm-water resulting from rain events. If you have any questions, please contact District Property Management at (352) 753-4022.

2017 MILL AND OVERLAY SCHEDULE

The District Property Management Department is coordinating with Rainey Construction to mill and overlay several roadway areas.

The District will deliver notices to each home that will be impacted by the work approximately 7-10 days in advance, in addition to placing informational signs at the entry and exit of each villa which will include the anticipated start and end date of the project.

The timeline may be adjusted due to unforeseen circumstances, including weather. If the timeline is adjusted, the informational signs at the villa entry and exits will be updated.

Please use caution and follow all flagman directions and signage. Newly paved roadways will take approximately one hour to cure and should NOT be driven on while hot.

The District thanks you in advance for your cooperation to ensure this is a successful project, and encourages you to adhere to the instructions that you will receive in the future.

FFCA Members:

Please see the information below on Texas Donations from FL DEM Director Bryan Koon.
Thank you. Regards, FEPA

We're beginning to get in some reports of donation drives in Florida designed to assist Harvey survivors. Texas has yet to identify any needs and at this point has no ability to deal with any donations they receive, no matter how well-intentioned. Please help get the word out to your communities and local elected officials that right now the best way to assist is through cash donations to a recognized charity. Here's a link you can use: <https://www.nvoad.org/>

Phase III Water Shortage Order Extended

On July 25, 2017, The Southwest Florida Water Management District (SWFWMD), the state water management agency for our area, extended the Phase III Water Shortage order for the Northern Region, which includes The Villages until October 1, 2017. The Environmental Protection Rate Surcharge as outlined in the water and sewer rates of 10% for water use only will remain in effect for the duration of the water shortage order.

Please keep in mind that this continues to restrict residential and commercial irrigation of lawns and landscaping to one day per week following the schedule printed below before 8:00 AM or after 6:00 PM.

Addresses with “house numbers” ...	May only irrigate on ...
Ending in 0 or 1	Monday
Ending in 2 or 3	Tuesday
Ending in 4 or 5	Wednesday
Ending in 6 or 7	Thursday
Ending in 8 or 9	Friday
No address (community common areas, etc.)	Friday

SWFWMD considers both natural water resource conditions and the viability of public supply when deciding to declare a water shortage order. For the past 20 years SWFWMD has worked diligently with its partners to develop alternative water supplies. Even though the region is experiencing drought conditions, there is adequate public water supply available.

Other water use restrictions, as well as ways to conserve water can be found on the District website at www.DistrictGov.org or by visiting the SWFWMD website at WaterMatters.org.
