Executive Golf

September / October Turf Talk

On Sunday, September 23rd, the calendar says it will be the first day of fall. In these exciting upcoming 2 months, our golf management community will be preparing for the busy season of winter play.

As our golf maintenance contractors prepare the courses, the District Executive Golf Team is planning the opening of many new additions after various improvements that occurred over the summer months.

Some highlights of these planned openings near the end of September and into October include the recently renovated tee, green and bunker complexes at the Hawks Bay Executive Golf Course. The new Practice Green/Tee complex at Silver Lake, the bunker capping of Oakleigh/Amberwood and the complete installation of new cart paths for Silver Lake and Chula Vista all make for an exciting two months in store for our residents!

Please remember that the courses will have a single day closure scheduled for over seed, as well as several blocked tee times throughout the upcoming weeks for over seed, irrigation and establishment. These closures will ensure superintendents complete the proper amounts of seeding on all tees. October should be unique this year as well. After 10 to 14 days with proper weather, the over seed should be fully established. As a result, your playing conditions should be ideal throughout the winter months.

TURF TIP:

Over seeding-

The process of planting seed into existing turf grass. We use this process to establish cool season grasses that grow better in and during cooler temperatures than our warm season grasses here in Florida. This enhances your playing satisfaction by supplying smoother playing surfaces and more colorful playing conditions.
