2018 Christmas Parade

IMPORTANT! The Villages 2018 Christmas Parade sponsored by the District Recreation & Parks Department will be held on **Saturday, December 8, 2018** at The Villages Polo Fields. Please be sure to follow the direction of local law enforcement and Special Events staff as there have been revisions to the staging and viewer parking areas. These revisions are critical and beneficial as we continue to grow within our community. ALL vehicles will enter the North gate of the Polo Field, while ALL golf carts will enter at the main Polo Field entrance. Free shuttle service will begin running from Laurel Manor and Savannah Recreation Centers at 9:15 a.m. and continue through 11:30 a.m. Return shuttle service will begin at the conclusion of the parade. Merry Christmas and Happy Holidays to all!!!

The Villages Public Safety Department will begin our Fire Hydrant Flush and Inspections program this week. Hydrant flush and inspections are required for ISO (Insurance Services Office) and the Hydrant Policy. Hydrant inspection affords crews the familiarity with all the hydrants in their response area. We currently have 4202 hydrants. The hydrants are located in and around The Villages Fire Service area. This task will take our firefighters approximately one month to complete. They will flush all hydrants until the water quality is clear and report all deficits to our fire prevention division, so repairs can be addressed by the respected water purveyor.

Fireworks are often used to mark special events and holidays. However, they are not safe in the hands of consumers. Fireworks cause thousands of burns and eye injuries each year. People can enjoy fireworks safely if they follow a few simple safety tips:

BE CAREFUL!

- Be safe. If you want to see fireworks, go to a public show put on by experts.
- Do not use consumer fireworks.
- Keep a close eye on children at events where fireworks are used.

CONSUMER FIREWORKS

NFPA is opposed to consumer use of fireworks. This includes sparklers and firecrackers. Even sparklers burn hot enough to cause third-degree burns.

FACTS

- ! Fireworks cause an average of almost 18,500 reported fires per year.
- ! Sparklers account for roughly one-quarter of emergency room fireworks injuries.
