**Hydrilla Treatments**

The water retention areas throughout The Villages are maintained through a contract with Clarke. Some of the maintenance activities include:

- Spraying to control shoreline grasses such as Torpedo grass and Spike Rush
- Spraying to control Filamentous and Planktonic Algae
- Spraying to control floating aquatic vegetation such as Duckweed and Water Hyacinth, as well as submersed aquatic plants such as Naiad and Hydrilla

The chemicals used are regulated by State and Federal Agencies. The amount of chemicals used and the frequency of use is limited. Spraying for shoreline grasses and algae is done in intervals of two weeks between sprayings. In the next 30 days, treatments for Hydrilla will take place. As the Hydrilla dies back (you cannot kill Hydrilla, only control it), an algae bloom will occur that will also be treated.

Beginning May 1, 2019, Chelsea Terrace between Kristine Way and SR 44 will be closed to vehicular traffic so work can be done for the future installation of the Morse Boulevard connectivity bridge over SR 44. A new entry/exit will be constructed from Kristine Way for access to the Rohan Regional Recreation Center. Please use caution in this area and pay attention to all directional signage.

### Station 47

As The Villages community continues to grow, so does the Department of Public Safety. Over the last several months, construction has been ongoing at Station 47, located at 4856 South Morse Boulevard (just south of State Road 44). This will be the 9<sup>th</sup> station in The Villages system. This station is a 11,000 square foot building that has office space for a District Customer Service Center Satellite office. In addition, the station can house 3 Fire apparatus and dorms for up to 10 firefighters, providing room for future growth. Stay tuned to [www.DistrictGov.org](http://www.DistrictGov.org) for the opening date and ribbon cutting.

On March 8, 2019, five Community Watch Dispatchers graduated from the Marion County Public Safety 9-1-1 Academy. In the month of April, four of those graduates sat for the State of Florida 9-1-1 Exam and all successfully passed. The fifth Dispatcher had to schedule the test for the month of May due to a pre-approved vacation. We are planning a second academy to begin in the next several months, in which four more Dispatchers will attend.

Community Watch has been in contact with Florida Telecommunication's Accreditation Commission to pursue the goal of accrediting the Community Watch Dispatch Center. A technical visit from a subject matter expert took place and Community Watch has been encouraged to continue the process. We have signed a contract with the Executive Director Bob Brongel, which allows for a 2 year window to come into compliance with the established standards. Stay tuned for more!

## **Solid Waste Safety**

The Jacobs Utility Team is comprised of nearly 75 employees and works with the District's Utilities. Congratulations to Jacobs employees for going over 365 days without a lost time injury! Considering the environment employees work in and the miles they drive, this is a remarkable accomplishment. To celebrate their accomplishment, a fantastic BBQ took place last Wednesday in which steaks were served along with all the fixins!

Supervisors were requested to supply the dessert in the form of a Safety themed cake, they were fantastic!

Safety First is a slogan that has been around for a long time and it applies to everything we do, every day. At Jacobs, we go beyond just saying Safety First to our employees. Our Safety slogan is "Beyond Zero!" You may ask what that means, well it's our way of developing a culture of caring with all of our employees! We want and expect our employees to not only practice Safety at work but we want them to have the same attitude and practice at home. We want our employees to go home safe every day and we want them to come to work safe every day.

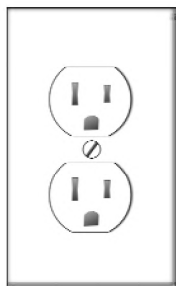

# Did You Know?

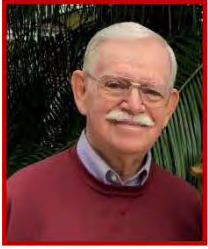

## **NATIONAL ELECTRICAL SAFETY MONTH –**

Each May the Electrical Safety Foundation International (ESFI) commemorates National Electrical Safety Month to raise awareness and educate the public on critical electrical safety topics.

National Electrical Safety Month is a good time to remind individuals to check their electrical safety awareness efforts at home. Addressing electrical safety can save lives, reduce injuries and cut economic loss. By taking simple precautions, everyone can avoid electrically related fires, fatalities, injuries and property loss by following some simple safety tips as follows:

- Check electric cords for fraying or cracking and replace cords that may be damaged.
- Remember extension cords are intended to be temporary; they are not intended as permanent wiring.
- Don't run electrical cords under carpets or rugs and don't tack or nail cords to walls or floors.
- Keep electrical appliances and tools away from water. Never reach for or unplug an appliance that has fallen into water; instead, turn the power off at the breaker before you unplug the appliance or remove it from the water.
- Never put anything other than an electrical plug in an outlet. Use outlet covers or caps to protect children.
- Keep your home's electrical system in good repair. Contact a licensed/insured electrical contractor if you have flickering lights, sparks, non-functioning outlets or need wiring repairs or upgrades.

# District 4 Q&A Meeting!

## Monday, May 6<sup>th</sup>

This month's Question & Answer meeting will be hosted by Don Deakin, Supervisor and Amenity Authority Committee (AAC) Representative.

In order to improve communications, each month residents have an opportunity to "chat" with a Supervisor of District 4. Residents are able to sit down together to discuss any topics they would like pertaining to District 4.

The purpose of the meetings is to provide residents with the opportunity to ask questions, get answers, share concerns, offer suggestions and address rumors.

These "Q&A Meetings" provide an informal setting with no agenda, no scheduled speakers and no microphones.

- All meetings are held at **Mulberry Grove Recreation Center**
- Meetings begin at **7:00 PM** and end at 9:00 PM. (Residents are invited to attend the entire meeting to listen to other residents' questions, but each resident may arrive and depart on their own schedule.)
- Because residents choose the topics, each meeting will be different.
