Important Information About Your Cloth Face Coverings

Print Resources Web Page: <https://www.cdc.gov/coronavirus/2019-ncov/communication/print-resources.html>

As COVID-19 continues to spread within the United States, CDC has recommended additional measures to prevent the spread of SARS-CoV-2, the virus that causes COVID-19. In the context of community transmission, CDC recommends that you:

Stay at home as much as possible

Practice social distancing (remaining at least 6 feet away from others)

Clean your hands often

In addition, CDC also recommends that everyone wear cloth face coverings when leaving their homes, regardless of whether they have fever or symptoms of COVID-19. This is because of evidence that people with COVID-19 can spread the disease, even when they don't have any symptoms. Cloth face coverings should not be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated, or otherwise unable to remove the mask without assistance.

How cloth face coverings work

Cloth face coverings may prevent the person wearing the mask from spreading respiratory droplets when talking, sneezing, or coughing. If everyone wears a cloth face covering when out in public, such as going to the grocery store, the risk of exposure to SARS-CoV-2 can be reduced for the community. Since people may spread the virus before symptoms start, or even if people never have symptoms, wearing a cloth face covering may protect others around you. Face coverings worn by others may protect you from getting the virus from people carrying the virus.

General considerations for the use of cloth face coverings

When using a cloth face covering, make sure:

- The mouth and nose are fully covered
- The covering fits snugly against the sides of the face so there are no gaps
- You do not have any difficulty breathing while wearing the cloth face covering
- The cloth face covering can be tied or otherwise secured to prevent slipping

Wash your cloth face covering after each use in the washing machine or by hand using a bleach solution. Allow it to completely dry.

Finance

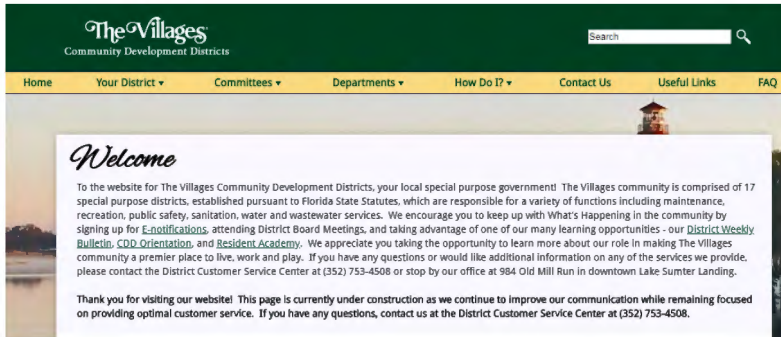

Why is July 17, 2020 an important date?

July 17, 2020 is an important date for any resident who would like to pay his/her bond off in full. July 17, 2020 is this year's Bond cut-off date. If the Bond is paid off in full by July 17th, the bond assessment will no longer appear on the annual County Property tax bill. This option allows residents to save on future interest payments. *Payments can be placed in a drop box (at your postal station or outside our main office) or by making an appointment.* If you opt not to pay off your bill, you will continue to pay in annual installments. If you have any questions, please contact the Bond Team at bonds@districtgov.org or 352-751-3900.

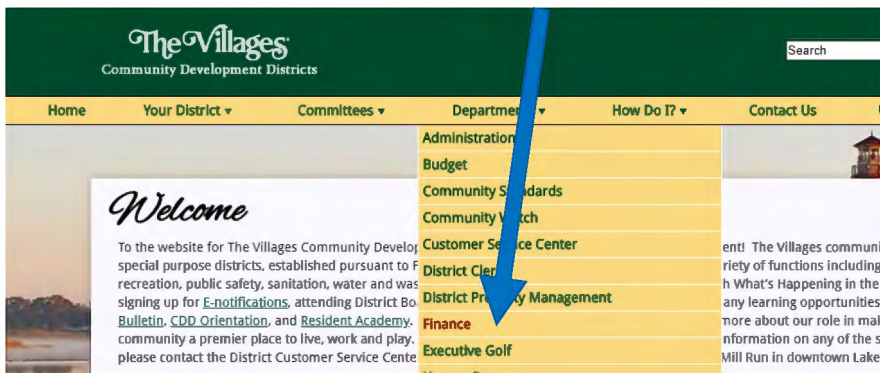

Where can I find my bond amortization schedule online?

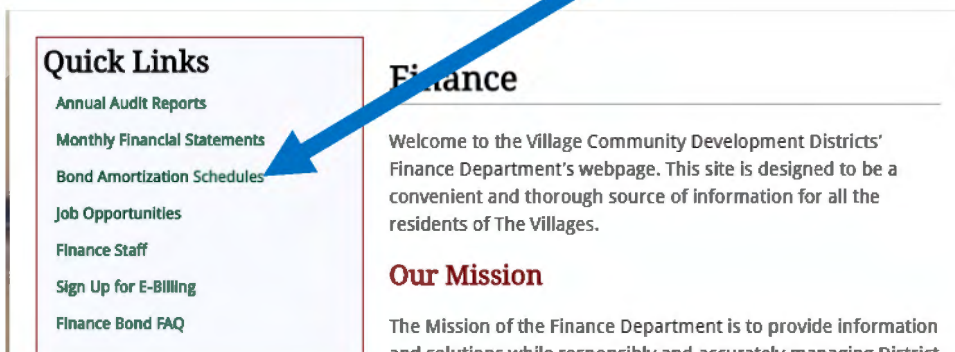

To find your bond amortization schedule, visit www.DistrictGov.org.

From the Departments drop-down, select Finance.

From Quick Links, select Bond Amortization Schedules.

Select the county in which you live.

Bond Amortization Schedules

To obtain your amortization schedule:

1. Select the County in which you live
2. Select the District in which you live
3. Select the Unit in which you live

If you are unsure of your unit number, it is located on your Villages ID card. The U/L number is the first letter of the county in which you live, followed by the unit number and lot number.

Construction Update

The Villages®
Community Development Districts
Property Management

Rainey Construction Company is tentatively scheduled to begin resurfacing roads in the following area-

- **Greenbrier Villas-** July 6, 2020
- **Cameron Villas-** July 13, 2020

Dates may be adjusted due to unforeseen circumstances, including weather.

Everything possible will be done to minimize your inconvenience. For the SAFETY of our crews and all residents, we ask that you reschedule any work or deliveries to your Villa until the paving is complete as they may be denied access. Only residents and emergency vehicles will have immediate access during the construction.

PLEASE DO NOT run your irrigation, wash your vehicle or empty your pool during the week, as it will increase the work time.

ALL vehicles and trailers must be parked OFF of the roads and the overflow parking areas must be empty, as to not impede the work.

Please be advised that newly paved roadways will take approximately one hour to cure and should not be driven on while hot! Driving before this time could result in tracking asphalt onto your driveway and damaging the new roadway.

If you must travel through the construction, PLEASE drive slowly and watch for and listen to directions provided by the contract workers.

Our goal is to give you a new road that will last a maximum life with the LEAST amount of inconvenience. Your cooperation is GREATLY APPRECIATED. If you have any questions during the work there will be someone on site to help. For additional information, please contact District Property Management at (352) 753-4022.

Information Provided by...

Preventative maintenance is occurring on the potable water system field valves throughout many areas of The Villages. Those customers serviced by Village Center Service Area (VCSA), Little Sumter Service Area (LSSA) and North Sumter Utilities (NSU) that will be impacted will be notified 24 hours in advance of a temporary interruption in service and will receive the following notification:

THE PUBLIC DRINKING WATER MAINS IN YOUR AREA WILL BE SHUT DOWN TEMPORARILY FOR NEEDED MAINTENANCE.

*AS A PRECAUTION, UPON RETURN OF WATER SERVICE, WE ADVISE THAT ALL WATER USED FOR **DRINKING, MAKING ICE, AND COOKING BE BOILED**, **FOR ALL OTHER HOUSE HOLD USES THE WATER IS ACCEPTABLE**. A ROLLING BOIL OF ONE MINUTE IS SUFFICIENT. AS AN ALTERNATIVE, BOTTLED WATER MAY BE USED.*

THIS "PRECAUTIONARY BOIL WATER NOTICE" WILL REMAIN IN EFFECT UNTIL THE MAINTENANCE TASK HAS BEEN COMPLETED AND A BACTERIOLOGICAL SURVEY SHOWS THAT THE WATER IS SAFE TO DRINK. THIS USUALLY CONSISTS OF A TWO DAY SAMPLING PERIOD TO INSURE SAFE DRINKING WATER.

IF YOU HAVE ANY QUESTIONS, YOU MAY CONTACT DEANNA SIMMONS, FROM THE WATER DEPARTMENT AT (352) 259-2802 (NSU WWTP).

A notice with the addresses of the affected area along with this information will be left at the door of all impacted addresses. We appreciate your patience and cooperation in order to maintain the continued integrity and safety of the District Infrastructure.

A tentative schedule of the areas impacted in the upcoming week:

We would like to wish everyone a happy, healthy, safe holiday weekend! Ensure your Independence Day weekend is filled with celebration and not regret with these Fourth of July safety reminders!

Take the proper precautions when operating fireworks.

⇒ Check your local ordinances before using fireworks!

- Never disassemble or try to make your own fireworks.
- Don't point sparklers, or fireworks at yourself or others, especially while they're being lit.
- Only light fireworks on the ground and in areas that are dry and fire resistant.
- Don't attempt to light multiple devices at the same time.
- Never allow young children to handle fireworks or sparklers.
- **Always keep a portable fire extinguisher close by. Also keep a water hose or buckets of water nearby to put out fires.**
- If fireworks malfunction, don't relight them! **Douse and soak** them with water then throw them away.

Barbeques and picnics are one of the most popular ways to celebrate the Fourth of July! Always follow safe grilling practices and food safety practices to ensure a perfect holiday weekend.

- Check gas grill hoses for cracks, holes and leaks.
- Never grill indoors, in the garage, in any enclosed area or on a surface that might catch fire.
- Keep the grill at least two feet away from decks, siding, branches and any outdoor equipment that can catch fire quickly.
- Keep cold food cold. Place cold food in a cooler with ice or frozen gel packs. Cold food should be stored at 40 °F or below to prevent bacterial growth. Meat, poultry, and seafood may be packed while still frozen so that they stay colder

- Keep coolers closed: Once at the picnic site, limit the number of times the cooler is opened as much as you can. This helps to keep the contents cold longer.
- Don't cross-contaminate. Be sure to keep raw meat, poultry, and seafood securely wrapped.
- Clean your produce. Rinse fresh fruits and vegetables under running tap water
- Cook food thoroughly. When it's time to cook the food, have your food thermometer ready..
- Keep "ready" food hot. Grilled food can be kept hot until served by moving it to the side of the grill rack, just away from the coals. This keeps it hot but prevents overcooking.
- Check for foreign objects in food. If you clean your grill using a bristle brush, check to make sure that no detached bristles have made their way into grilled food.
- **Wash your hands with warm water and soap for at least 20 seconds before and after handling food and after using the bathroom, changing diapers, and handling pets.**

Florida in July means humidity, high UV, and heat! Make sure to practice heat illness prevention! Tips to protect yourself from heat related stress and illness:

- Drink cool, nonalcoholic beverages (avoid extremely cold liquids because they can cause cramps)
- Take a cool shower, bath, or sponge bath
- Seek an air-conditioned environment
- Wear lightweight clothing; remain indoors during heat of the day; do not engage in strenuous activities

- Protect your skin from the harsh UV rays, protect your skin with light clothing, covering as much as possible.
- Apply sunscreen 30 minutes before venturing outdoors, and reapply every two hours.

Swimming pools and beaches are great places for family fun. It is important to ensure everyone follows these simple tips to stay safer in and around the water!

- **Never leave a child unattended in or near water**
- Never swim alone
- Always wear a life vest when on boats, kayaks, paddleboards etc.
- Stay away from pool drains
