Construction Update

Rio Grande Air Gun Range

The concrete tile roof is installed. The prep work for the building's trim work is complete. In the coming days, we will begin preparing for and installing the finishes. The existing range will remain open until the new facility is completed, adhering to the COVID – 19 District Action Plan & Health Department guidance.

First Responders Recreation Center

The architects and engineers are working to produce a complete set of review bid plans for the project by early August 2020.

Construction Update

Brownwood Woodshop

The masonry construction of the building and the underground electrical and plumbing for the building are complete. The concrete floor has been poured and the steel erection is underway. The contractor is nearing completion of the elevator shaft and mezzanine.

Key Largo Community Watch Building

The technology and communications upgrades to the Gate Operations Center are near completion. The video monitor wall is complete and the furniture is being installed. The District anticipates the new Gate Ops Center will be up and running by the end of the week. Phase two, the renovation of the Dispatch Center, will begin Friday.

Construction Update

The Villages®
Community Development Districts
Property Management

Rainey Construction Company is tentatively scheduled to begin resurfacing roads in the following area-

- **Greenbrier Villas-** July 13, 2020
- **Cameron Villas-** August 3, 2020

Dates may be adjusted due to unforeseen circumstances, including weather.

Everything possible will be done to minimize your inconvenience. For the SAFETY of our crews and all residents, we ask that you reschedule any work or deliveries to your Villa until the paving is complete as they may be denied access. Only residents and emergency vehicles will have immediate access during the construction.

PLEASE DO NOT run your irrigation, wash your vehicle or empty your pool during the week, as it will increase the work time.

ALL vehicles and trailers must be parked OFF of the roads and the overflow parking areas must be empty, as to not impede the work.

Please be advised that newly paved roadways will take approximately one hour to cure and should not be driven on while hot! Driving before this time could result in tracking asphalt onto your driveway and damaging the new roadway.

If you must travel through the construction, PLEASE drive slowly and watch for and listen to directions provided by the contract workers.

Our goal is to give you a new road that will last a maximum life with the LEAST amount of inconvenience. Your cooperation is GREATLY APPRECIATED. If you have any questions during the work there will be someone on site to help. For additional information, please contact District Property Management at (352) 753-4022.

July is National Vehicle Theft Prevention Month

The Villages®
Community Development Districts
Risk Management

Motor vehicles are the primary mode of transportation for most of us, and often an indispensable part of our lives. But what would happen if your vehicle suddenly disappeared? Over **770,000 drivers** fall victim to this costly crime each year.

In 2017, more than three-quarters of a million vehicles were stolen in the United States—and nearly half of those thefts were due to driver error. Vehicle theft is a multi-billion-dollar crime, with the cost of stolen vehicles coming in at nearly \$6 billion in 2017 alone. 75.4% of those vehicles were automobiles. Summers prove to be the worst season for vehicle theft. To help drivers keep their vehicles safe, the National Highway Traffic Safety Administration is continuing its annual Vehicle Theft Prevention Campaign during July—National Vehicle Theft Prevention Month.

A motor vehicle is stolen every 40.9 seconds in the United States.

Use common sense when parking and exiting your car **and golf carts**:

- Take your vehicle's key; do not leave it in or on your vehicle.
- Never leave your car running, especially while it is unattended or unlocked.
- Close and lock all windows and doors when you park.
- Park in well-lit areas if possible.
- Never leave valuables in your vehicle, especially if they can be seen from outside the vehicle.

Thieves want vehicle parts and valuable items, too.

Radios and wheel covers aren't the only popular stolen vehicle parts thieves take. They want whatever sells. Some of the most popular vehicle parts or valuable items stolen from vehicles include doors, engines, transmissions, air bags, radios, GPS units, cell phones, iPads, laptops and purses.

Park your car and golf cart in a garage whenever possible, especially when parking over night.

July is National Vehicle Theft Prevention Month

The Villages®
Community Development Districts
Risk Management

There are numerous antitheft systems and devices designed to make vehicles more difficult to steal or easier to trace and recover. Here are how some of them work:

- ⇒ **Audible and Visible Devices:** These devices, such as a horn alarm, deter theft by bringing attention to an unauthorized attempt to steal or enter a vehicle. Visible devices create a visual threat/warning/deterrence, such as the use of steering-wheel locks, as well as theft-deterrent decals, flashing lights and window etching.
- ⇒ **Immobilizing Type Devices:** These prevent thieves from bypassing a vehicle's ignition system and hot-wiring the vehicle. Some incorporate computer chips in ignition keys or disable the flow of electricity or fuel to the engine.
- ⇒ **Vehicle Recovery Systems:** These devices use electronic transmission technology that help law enforcement reveal the location of stolen vehicles—and possibly catch the thief

If you are a victim of vehicle theft, follow these steps:

Contact police immediately to file a stolen-vehicle report. You will need a copy of the police report and/or a case number to provide to your insurance company. You may also be asked to provide the following information:

- License plate number; (serial number for golf carts)
- Make, model and color of your vehicle; and
- Vehicle Identification Number (VIN) and any identifying characteristics.

Contact your insurance company to file a claim within 24 hours of your vehicle being stolen.

If you find your vehicle before authorities do, contact the police and your insurance company immediately.

Consider getting a GPS tracker or a Vehicle Recover System for your golf cart. Follow these helpful tips to lower your risk of becoming a victim to automobile or golf cart theft.

Utilities

My irrigation usage increased and I didn't touch my timer, how can that be?

Many people have been surprised to learn that the timer that is installed at the time of construction of the home, a Hunter Pro-C, is equipped with a feature called Solar Sync. Self-adjusting is exactly what it is designed to do!

An excerpt from HunterIndustries.com:

“The Solar Sync Sensor is an advanced weather sensor that calculates evapotranspiration (ET) and adjusts Hunter controllers daily based upon onsite weather conditions. Solar Sync measures sunlight and temperature, and uses ET to determine the correct seasonal adjustment percentage value to send to the controller. The controller then uses its programmed run time and adjusts to Solar Sync's seasonal adjustment value to modify the actual irrigation run time for that day.”
