City of Wildwood Ad Valorem Taxes

Ad valorem taxes, also known as property taxes, are set according to the value of the property being assessed. The figure below illustrates how each tax dollar is allocated to provide services.

Wildwood is one of the fastest-growing cities in central Florida! As you've watched our small town flourish, one thing has remained the same – we are a community. And that starts with you. With your tax contributions, you are the driving force behind our expansion.

Low Tax Rates

Millage Rate:

The rate of tax per thousand dollars of taxable value. This rate determines the amount of ad valorem taxes that will be generated by the City. The "rolled-back rate" is the rate that would generate the same amount of property tax as approved for the prior year. A tax rate higher than the calculated rolled-back rate is considered a tax increase per Florida law. For the third consecutive year, the City's millage rate is at or below the rolled-back rate.

Beginning October 1, 2020, all solid waste and yard waste in Village Community Development Districts 1-11, located in Sumter County, Marion County and The Villages of Fruitland Park transitioned into delivery by Jacobs to the Covanta Lake II, Inc. Energy from Waste (EfW) facility in Okahumpka.

Overall, the first four days of collection went extremely well and was very well received from both residents and the Jacobs crew.

Jacobs

The following information was provided by Jacobs regarding the first four days of collection:

- + 854 tons of solid waste was collected
- + 7.5 average hours were worked
- + 10 tons average per truck
- + 7,440 miles driven
- + 15 minutes average time at COVANTA
- + 60 minutes average travel time to and from COVANTA
- Each Jacobs truck traveled to COVANTA 2 times daily
- + 673 phone calls taken at the Jacobs call center
- + 361 phone calls received by District regarding sanitation
- The majority of calls received were related to bulk pick-up items and clarification on collection schedules

While there was a minor scheduling conflict with approximately 500 homes, those residents were notified by Jacobs and collection occurred the next day. The feedback from residents has been predominately positive and the District will continue to provide information through various communication outlets including www.DistrictGov.org, e-Notifications, Weekly Bulletin and postal station bulletin boards.

Information Provided By...

This information is provided to residents living in Village Community Development Districts 1-11, located in Sumter County, Marion County and The Villages of Fruitland Park.

**All Household Solid Waste and Yard Waste is Picked up Twice a Week
Same time, same truck, all together!**

Jacobs

All household waste should be in a sealed trash bag (tall kitchen bag or 20-30 gallon trash bag, any color (with the exception of red, which is used for medical waste)).

Yard waste, such as yard clippings and leaves should be placed in bags. Yard waste bags are fine!

Limbs & branches should be bundled and tied and may not exceed 4" in diameter, 4' in length or exceed 40 pounds.

Recreation Information – there are multiple outlets to get your recreation information first hand!

Resident Lifestyle Club Notices

You'll notice we have revised the club section of the Recreation & Parks Publication to streamline and categorize the listings, provide a consistent reading experience, make it convenient for residents to find the club or activity and allow for more club listings and continued growth. We understand that each club has a unique description and meeting time. It can be challenging to fit that into the requirements previously set in our Clubs Section. With these changes, each club will have a listed website, social site or email/phone contact in the event residents would like to find out more information. These additions benefit the club leaders and allow residents to learn of changes, and get real-time data directly. The complete listing of clubs and activities including meeting day, time and location will remain on www.DistrictGov.org/images/clubslisting.pdf.

First Responders Recreation Center

The District has begun its review and comments of the preliminary construction plans. The site plans are near completion and we will be applying for site permits in the coming weeks. District Property Management has completed selective clearing of the old landscaping around the building and parking lot in preparation for the relocation of some of the existing utilities. It is anticipated the bid documents for the project will be ready late October/early November.

Mulberry Canine Park Shade Structure

The District has received the bids for the project and the “Notice of Intent to Award” has been sent to the General Contractor. We anticipate an approval to award the contract for construction in mid-November, with a possible start of construction late December.

As technology continues to evolve, cybercriminals will use more sophisticated techniques to exploit technology to steal your identity, personal information, and money.

>Hackers

There is a hacker attack every 39 seconds.

A Clark School study at the University of Maryland is one of the first to quantify the near-constant rate of hacker attacks of computers with Internet access— every 39 seconds on average, affecting one in three Americans every year —and found the **non-secure usernames and passwords** we use gave attackers more chances of success.

>Identity Theft and Internet Scams

7-10% of the U.S. population are victims of identity fraud each year and 21% of those experience multiple incidents of identity fraud.

- **Imposter Scams** occur when you receive an email or call from a person claiming to be a government official, family member, or friend requesting personal or financial information. For example, an imposter may contact you from the Social Security Administration informing you that your Social Security number (SSN) has been suspended, in hopes you will reveal your SSN or pay to have it reactivated.

As if a pandemic wasn't scary enough, hackers leverage the opportunity to attack vulnerable networks as office work moved to personal homes.

****Since COVID-19, the US FBI reported a 300% increase in reported cybercrimes**

- **COVID-19 Scams** take the form of emails with malicious attachments or links to fraudulent websites to trick victims into revealing sensitive information or donating to fraudulent charities or causes. Exercise caution in handling any email with a COVID-19-related subject line, attachment, or hyperlink, and be wary of social media pleas, texts, or calls related to COVID-19.

- **COVID-19 Economic Payments scams** target Americans' stimulus payments. CISA urges all Americans to be on the lookout for criminal fraud related to COVID-19 economic impact payments—particularly fraud using coronavirus lures to steal personal and financial information, as well as the economic impact payments themselves—and for adversaries seeking to disrupt payment efforts.

SIMPLE TIPS

- **Keep your passwords on the down-low.** Don't tell anyone your passwords and watch for attackers trying to trick you into revealing your passwords through email or calls. Every time you share or reuse a password, it chips away at your security by opening up more avenues in which it could be misused or stolen.
- **Don't make passwords easy to guess.** Do not include personal information in your password such as your name or pets' names. This information is often easy to find on social media, making it easier for cybercriminals to hack your accounts.
- **Secure your Wi-Fi Network.** Your home's wireless router is the primary entrance for cybercriminals to access all of your connected devices. Secure your Wi-Fi network and your digital devices by changing the factory-set default password and username.
- **If you connect, you must protect.** Whether it's your computer, smartphone, game device, or other network devices, the best defense is to stay on top of things by updating to the latest security software, web browser, and operating systems. If you have the option to enable automatic updates to defend against the latest risks, turn it on. And, if you're putting something into your device, such as a USB for an external hard drive, make sure your device's security software scans for viruses and malware. Finally, protect your devices with antivirus software.

- **Never click and tell.** Limit what information you post on social media—from personal addresses to where you like to grab coffee. What many people don't realize is that these seemingly random details are all that criminals need to know to target you, your loved ones, and your physical belongings—online and in the real world. Keep Social Security numbers, account numbers, and passwords private, as well as specific information about yourself, such as your full name, address, birthday, and even vacation plans. Disable location services that allow anyone to see where you are.
- **Be wary of hyperlinks.** Avoid clicking on hyperlinks in emails and hover over links to verify authenticity. Also ensure that URLs begin with "https." The "s" indicates encryption is enabled to protect users' information.

Follow these steps to better protect yourself. If something seems or looks "phishy" it most likely is.

This year and every year, "Do Your Part, Be Cyber Smart!"
