Did You Know??

Tuesday, June 14, 2022 is National Flag Day

“That the flag of the United States shall be of thirteen stripes of alternate red and white, with a union of thirteen stars of white in a blue field, representing the new constellation.”

This resolution was adopted by the Continental Congress on June 14, 1777. The resolution was made following the report of a special committee which had been assigned to suggest the flag’s design.

A flag of this design was first carried into battle on September 11, 1777, in the Battle of the Brandywine. The American flag was first saluted by foreign naval vessels on February 14, 1778, when the Ranger, bearing the Stars and Stripes and under the command of Captain Paul Jones, arrived in a French port. The flag first flew over a foreign territory in early 1778 at Nassau, Bahama Islands, where Americans captured a British fort.

Observance of the adoption of the flag was not soon in coming, however. Although there are many claims to the first official observance of Flag Day, all but one took place more than an entire century after the flag’s adoption in 1777.

Both President Wilson, in 1916, and President Coolidge, in 1927, issued proclamations asking for June 14 to be observed as the National Flag Day. But it wasn’t until August 3, 1949, that Congress approved the national observance, and President Harry Truman signed it into law.

External and Internal Deed Compliance FAQ

Why can't the Districts enforce internal deed restrictions?

The Village Community Development Districts through adopted Rule may enforce certain EXTERNAL restrictions that have been adopted by each Board to enforce as authorized by Chapter 190 of Florida Statutes.

How can I submit a concern?

You can report potential violations by contacting the Community Standards Department at 352 751-3912, visiting our office at 984 Old Mill Run, or emailing deedcompliance@districtgov.org.

Once I submit a concern, what happens next?

Once Community Standards receives a complaint about an external violation, the Staff verifies the complaint. If the complaint is verified, the Staff works with the property owner in an attempt to bring the property into compliance. If contact is not made with the Owner, Staff begins the process as adopted by each District Board. If a complaint is received for an internal violation, the complaint is provided to the Declarant.

Hurricane Season 2022: June 1st—November 30th

Be Prepared

The Atlantic hurricane season officially begins June 1st and runs through November 30th. Living in Florida, it is crucial to have a hurricane preparedness plan, a hurricane kit and know what to expect during hurricane season.

Know the Terms

- **Tropical depressions** are cyclones with winds of 38 mph.
- **Tropical storms** vary in wind speeds of 39-73 mph.
- **Hurricanes** have winds of 74 mph and greater.

Typically the upper right quadrant of the storm (the center wrapping around the eye) is the most intense portion of the storm. The greatest threats are damaging winds, storm surges and flooding.

Information Provided By...

Tropical storm watch: Tropical storm conditions are possible in the area.

Tropical storm warning: Tropical storm conditions are expected in the area.

Hurricane watch: Hurricane conditions are possible in the area. Watches are issued 48 hours in advance of the anticipated onset of tropical storm force winds.

Hurricane warning: Hurricane conditions are expected in the area. Warnings are issued 36 hours in advance of tropical storm force winds.

Eyewall: The area immediately surrounding the eye where the destructive force of the storm is the most intense.

Storm surge: An often underestimated and deadly result of ocean water swelling as a result of a landfalling storm, and quickly flooding coastal and sometimes areas further inland.

During a watch: Prepare your home and evacuation plan in case a warning is issued.

During a warning: Carefully follow the directions of officials, and immediately leave the area if they advise it. In the event of an Extreme Wind Warning/Advisory, which means that extreme sustained winds of 115 mph or greater are expected to begin within an hour, immediately take shelter in the interior portion of a well-built structure.

It is advised to have a hurricane kit and plan ready every season! It is important to create a kit of supplies that you could take with you if you are forced to evacuate. This kit will also be useful if you are able to stay in your home but are still affected by the storm, such as through the loss of power.

- Keep your cell phone charged when you know there is a chance of a hurricane and purchase backup charging devices to power electronics.
- Have enough supplies for your household, including medication, disinfectant supplies, cloth face coverings, and pet supplies in your go-bag or car trunk.
- If you or anyone in your household is an individual with a disability identify if you may need additional help during an emergency.
- Make sure your insurance policies and personal documents such as your ID are up to date. Make copies and keep them in a secure password-protected digital space.

Those customers serviced by Village Center Service Area (VCSA), Little Sumter Service Area (LSSA), North Sumter Utilities (NSU), Central Sumter Utilities (CSU) and South Sumter Utilities (SSU) that will be impacted will be notified 24 hours in advance of a temporary interruption in service and will receive the following notification:

AS A PRECAUTION, UPON RETURN OF WATER SERVICE, WE ADVISE THAT **ALL WATER USED FOR DRINKING, MAKING ICE, AND COOKING BE BOILED, FOR ALL OTHER HOUSE HOLD USES THE WATER IS ACCEPTABLE.** A ROLLING BOIL OF ONE MINUTE IS SUFFICIENT. ADVISORY OF INCREASED INFLUENZA ACTIVITY IN SUMTER COUNTY AND ACROSS THE STATE OF FLORIDA

Bushnell, Fla.—The Sumter County Health Department (Sumter-CHD) advises all residents and medical providers of increased influenza activity. Cases of influenza detected locally and across the state of Florida, are higher than expected for this time of year.

“Although flu vaccines can vary in effectiveness from season to season, they continue to be the best way to prevent infection and reduce the risk of more serious influenza-related complications.”— *Dr. Sanford Zelnick, Director of the Sumter County Health Department.*

Sumter-CHD is therefore encouraging residents to get their flu vaccine now if they have not done so already. The flu vaccine is safe and recommended for everyone six months and older, including pregnant women. For adults 65 and older, a high-dose flu vaccine is recommended. Certain children, those between 6 months through 8 years of age, require two doses of influenza vaccine. If you have questions about the influenza vaccine, please contact your medical provider.

Symptoms of the flu may vary but could include any of the following: fever, chills, muscle aches, runny nose, congestion, cough, headaches, and fatigue. If you are experiencing any such symptoms, please stay home and contact your medical provider if symptoms persist. It is important to practice good hand hygiene as well, such as hand washing and covering your mouth when sneezing and coughing.

Medical providers are encouraged to increase their suspicion of influenza for patients presenting to them with respiratory illness. Though COVID-19 is still present in our community, influenza may be responsible for respiratory illnesses. Rapid diagnosis of influenza is most helpful to initiate anti-viral medications and other supportive measures.
