Fish Kills In The Villages

Fish kills, characterized by a significant number of fish dying in a specific area, can occur in Florida due to various factors. One of the primary causes of fish kills is oxygen depletion in the water, which is more likely to happen during the hot summer months.

During hot weather conditions with cloudy skies, fish kills are more likely to occur. The combination of these factors can be particularly deadly for fish. Cloud cover reduces the amount of sunlight reaching the water, hampering the process of photosynthesis in aquatic plants. As photosynthesis decreases, the oxygen production in the water column also diminishes. If such conditions persist for several days, oxygen levels can become severely depleted, leading to fish kills.

Heavy thunderstorms, especially when they occur over extended periods or after a long period of dry weather, can also contribute to fish kills. The rainfall washes organic matter, such as dry leaves and grasses, into nearby basins and ponds. As bacteria begin to decompose this organic material, oxygen is consumed at a faster rate than normal. This increased demand for oxygen, coupled with reduced sunlight due to cloud cover, can create an imbalance and result in oxygen-depleted water, posing a threat to fish populations.

In conclusion, fish kills, while alarming to witness, typically affect only a portion of the fish population, with many fish surviving the event. Fish have evolved mechanisms to adapt to changing water quality, and they can often recover and replenish their numbers over time. However, it is unfortunate that fish kills occur frequently in Florida, and most of them are natural phenomena. Predicting when a fish kill will happen is challenging, and preventive measures are limited, particularly in larger bodies of water.

Summer Time in Florida is HOT!

Tips to protect yourself from heat related stress and illness:

- Drink cool, non-alcoholic beverages (avoid extremely cold liquids as they can cause cramps)
- Rest
- Take a cool shower or bath
- Seek an airconditioned environment
- Wear lightweight clothing
- Remain indoors during the day
- Don't engage in strenuous activities

Tips to help protect elderly (65+) friends and neighbors:

- Visit older adults at risk at least twice a day to watch them for signs of heat exhaustion
- Encourage them to increase their fluid intake by drinking cool, non-alcoholic beverages regardless of activity level
- Take them to airconditioned places

The Recreation & Parks Department will cancel/postpone outside activities when the temperature with a heat index 104 degrees or higher. This guideline is subject to change depending on the activity as we take into account the health, safety and well-being of all involved.

Lightning/Inclement Weather Policy

In the event of inclement weather or lightning, the Recreation & Parks Department recommends patrons at pools or outdoor recreation areas find shelter and wait at least 30 minutes before resuming activities. The Recreation & Parks Department has the right to close facilities for public safety in the event of any storm warnings issued by the National Weather Service or Public Safety Department for any tornados, hurricanes or severe storms.

Pet-Friendly Guidelines

- Dogs are required to be on a leash at all times - dogs are not allowed off leash on any athletic fields or public areas or to play and walk on common area landscaping.
- Owner is responsible for picking up after pet and taking all waste home for disposal. Don't use storm drains, postal or recreation facilities to dispose of waste or plastic bags.
- Please follow all county ordinances regarding pets.
- Dog owners are responsible for any injuries caused by their dog(s).
- Dogs must wear current license tags and have up to date vaccinations.

TURF TALK

The Villages
Community Development Districts
Executive Golf

JULY 2023

352-674-1885 • DistrictGov.org • GolfTheVillages.com

Summer is now in full swing, which means every day you can count on heat, humidity, and thunderstorms! This is the busiest time of year for golf maintenance staff trying to keep up with picking up debris after every storm, keeping drains clear, and of course, mowing grass that is growing as fast as you can cut it!

We also have a couple Rest and Rehab closures going at De La Vista and Bacall. These closures have given us the necessary time to complete projects from aggressive weed spraying and aerification to re-pouring concrete, extensive tree trimming, painting, and installing new restroom floors.

Speaking of closures, the capital renovation projects are moving right along as planned! Churchill's greens and fairways are sprigged and growing in, Belmont's greens are being filled with new gravel before the new soil is added, and the Briarwood and Hilltop projects are not far behind!

TURF TIP

Every golf course has a box of green sand near the starter shack to encourage players to take it on the course with them, but do you know why?

When you take a divot out of a tee box or fairway, it leaves a void. By filling it with sand, you not only make it level and improve its appearance, you're also giving the grass something to grow into so it can recover on its own. No matter where you are on the course, please fill your divots!

As everyone knows, one of our biggest challenges going into this time of year is the potential for tropical storms and hurricanes. The extreme winds and high volumes of rain not only cause plenty of damage but the cleanup can take days even weeks depending on the severity. Even normal rainfall events in the summer can cause flooding. Please be patient with the Executive Golf Maintenance staff while we work to get the courses back in the best possible condition as quickly as we can.

PUBLIC SAFETY SPOTLIGHT

DEPUTY CHIEF DON W. NEEBLING

Name/Rank:

Deputy Chief Don W. Neebling

Years of Service:

32

Current Area of Service:

Deputy Chief of Administration

What has been your most rewarding moment or achievement serving with VPSD?

The most rewarding moments throughout my service to The Villages Public Safety Department has to be every time I witness one of my past crew members earn a promotion and advance in the Department.

Disaster Supply Kit Checklist

- Prescription medications for 7 days
- Basic first aid kit
- Cell phone with a charged battery
- Non-perishable food for 7 days
- Toiletries, hygiene supplies, toilet paper
- Drinking water/containers
- Flashlight and **batteries!**
- Portable radio and **batteries!**
- Plastic plates, dinnerware, cups
- Utensils/manual can opener
- Tarps / heavy-duty plastic or canvas
- Basic tool kit
- Trash bags
- Duct tape!**
- Variety of containers and lids
- Clothing and rain gear
- Cash → small bills only!
- 5 Gallon Bucket
- Water for 7 days (1gallon daily per person)
- Food (enough for 7 days)
- Blankets/Pillows, etc.
- Moisture Wipes
- Keys
- Pet Care Items (Identification/immunization records/food & Water, carrier or crate, medications muzzle and leash)

I BET YOU DIDN'T KNOW...

We recently had family visit us, my brother-in-law and sister-in-law from Georgia. My husband and I were born and raised in Atlanta, Georgia and had never lived in any other state until we moved to The Villages, Florida ten years ago. They've visited us several times in the past but not for a few years. They stated the growth was phenomenal and were in awe of all the new homes and amenities available. As we drove them around the newest areas of The Villages, I watched their faces fill with excitement like our realtor experienced with us during our Lifestyle Preview. I told them it is very exciting to work for The Villages Community Development Districts and be a part of this growth and beautiful community. They commented on how well designed The Villages is, how the traffic flows smoothly both day and night and the beautiful landscaping as you drive through the community. They marveled at all the restaurants, swimming pools, recreation centers, golf courses, shopping and healthcare we have at our fingertips. After a few days of showing them all the new homes, recreation centers, pools, dining, and playing billiards, we decided to head to the beach for a beautiful and enjoyable beach trip.

When we returned home, my brother-in-law and sister-in-law said they understand why we are so excited to return home to The Villages after a vacation. While Georgia was our birthplace and home for 55 years, The Villages will always be our forever home. My husband and I really enjoy showing off The Villages to our family and friends and we are very happy we made the decision to move here ten years ago. Life is truly great in The Villages!

Tamara Hyder, **Executive Assistant to the District Manager and Resident of The Villages**

Tips On Saving Water Indoors

Information Provided By...

The Villages®
Community Development Districts
Utilities

Four Tips to Help Conserve Water Indoors

- Turn off faucet while brushing teeth.
- Take shorter showers.
- Fix leaks in faucets, showerheads and toilets.
- Only wash full loads.

Watch out for silent leaks in toilets. Remove the toilet tank lid and any colored cleaning agents. Flush to clear the water in the bowl. Add dye tablets, leak detector fluid or even a few drops of food coloring to the tank. If there is a leak, color will appear in the bowl within 10 to 15 minutes. Flush when the test is completed.

Take shorter showers and make sure there are no leaks in showerheads. If there is a leak, make sure the showerhead is screwed tightly. Additionally, make sure showerheads are low-flow. Older high-volume showerheads

deliver 4 gallons of water per minute. Pressures have been adjusted to the low-flow fixtures to deliver as good a shower as the higher flow showerheads.

If you believe you have a potable water leak, contact Utilities Customer Service at 352-750-0000 and they can review your billing history. Potable water conservation is a community-wide effort, we all share in the Stewardship of this valuable resource.

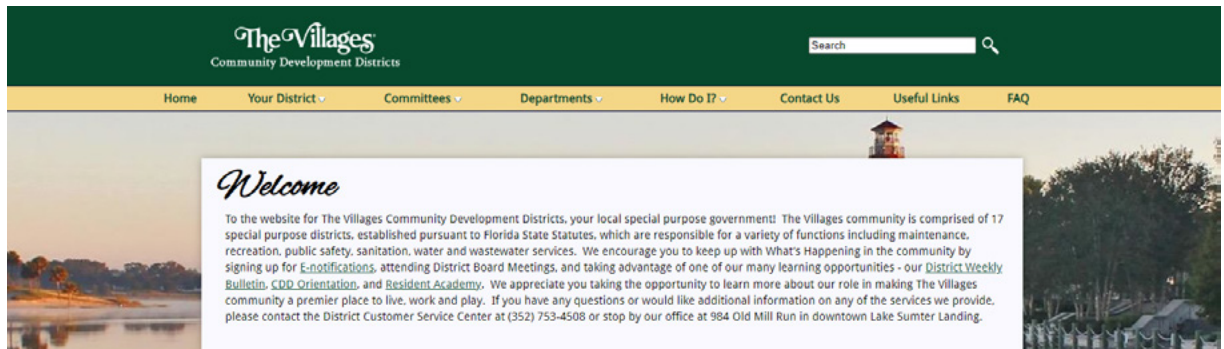

Adjust wash cycles for laundry. Select the minimum volume of water required for each load. Normal and permanent press wash cycles use more water, so use the shortest wash cycle for light loads. Stains can be pretreated to avoid rewashing.

To learn more about water conservation, visit [WaterMatters.org](https://www.WaterMatters.org).

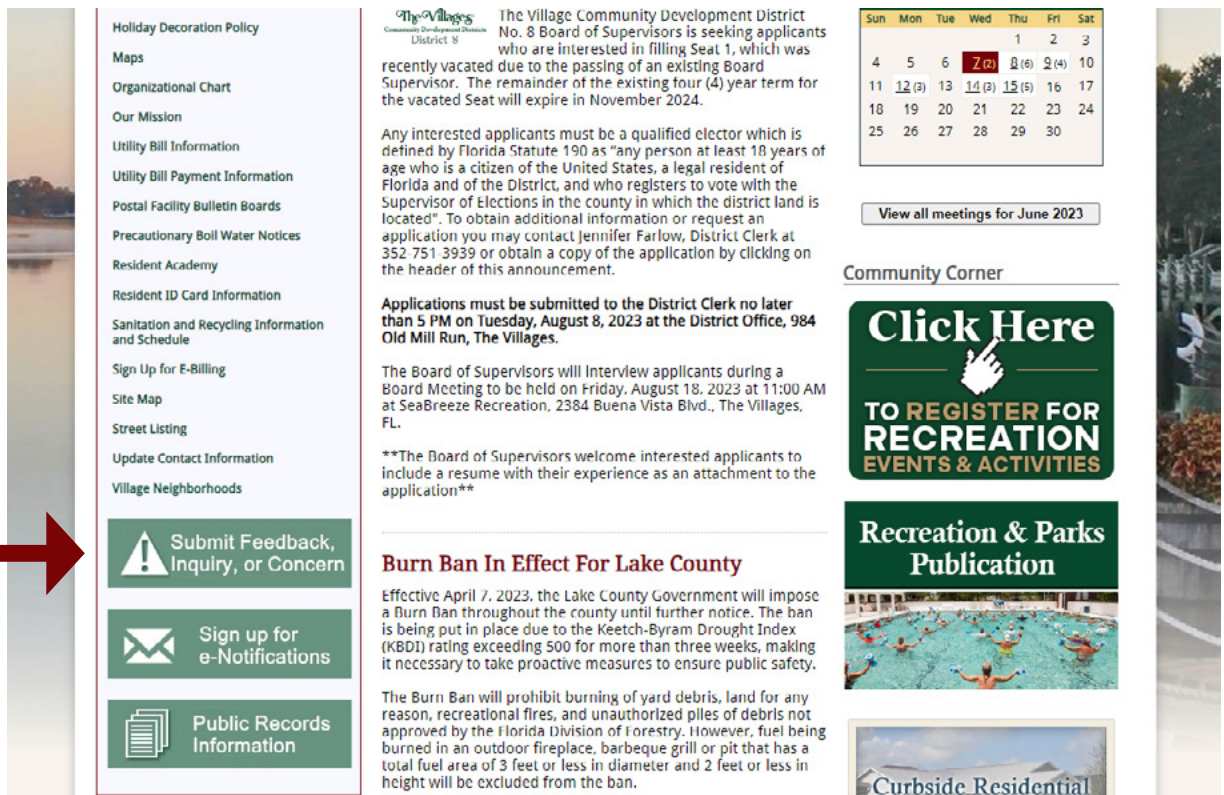

Do you have a question, comment, concern or just want to provide feedback? You can contact us 24/7 on DistrictGov.org!

1 Go to DistrictGov.org.

2 Scroll down and click on the 'Submit Feedback, Inquiry, or Concern' Quick Link button on the left-hand side of the page.

Do you have a question, comment, concern or just want to provide feedback? You can contact us 24/7 on DistrictGov.org!

- 3 Select a category that best matches your inquiry. If you're unsure which category to choose, select 'General/Other Comment or Inquiry' and we will get it to the right place.

A screenshot of the DistrictGov.org contact form. On the left is a 'Quick Links' sidebar with items like 'Annual Report', 'Acronyms', 'Americans with Disabilities Act (ADA)', etc. The main form area has fields for 'Last Name', 'First Name', 'Street Address', 'Phone Number', 'E-Mail Address', 'Repeat E-Mail Address', and 'Question / Comment'. A dropdown menu for 'Category' is open, showing a list of options including 'Adopt-A-Bench Program', 'Architectural Review', 'Billing Inquiry', 'Board Agendas and Minutes', 'Bond or Maintenance Assessment', 'Budget', 'Community Watch', 'Compliment', 'Dead Violation', 'Employee Behavior', 'Executive Golf', 'Facilities Maintenance', 'Gate Access Card Key', 'General / Other Comment or Inquiry', 'Guest I.D. Cards', 'Landscaping', 'Meter Leak', and 'Multi-Modal Path'. A red arrow points to the 'Please Select One' option at the top of the dropdown.

- 4 Fill out the rest of the form and click submit. The appropriate department will contact you within 2-4 business days!

A screenshot of the DistrictGov.org contact form, titled 'Community Development Districts Request Form'. It includes a 'Quick Links' sidebar on the left. The form fields are: 'Category' (dropdown), 'Last Name', 'First Name', 'Street Address', 'Phone Number', 'E-Mail Address', 'Repeat E-Mail Address', and 'Question / Comment'. Below the fields is a reCAPTCHA widget with the text 'I'm not a robot' and a 'Submit Incident Report' button. A red arrow points to the 'Submit Incident Report' button.

PRESS RELEASE PROVIDED BY SUMTER COUNTY

Immediate Release:

July 25, 2023

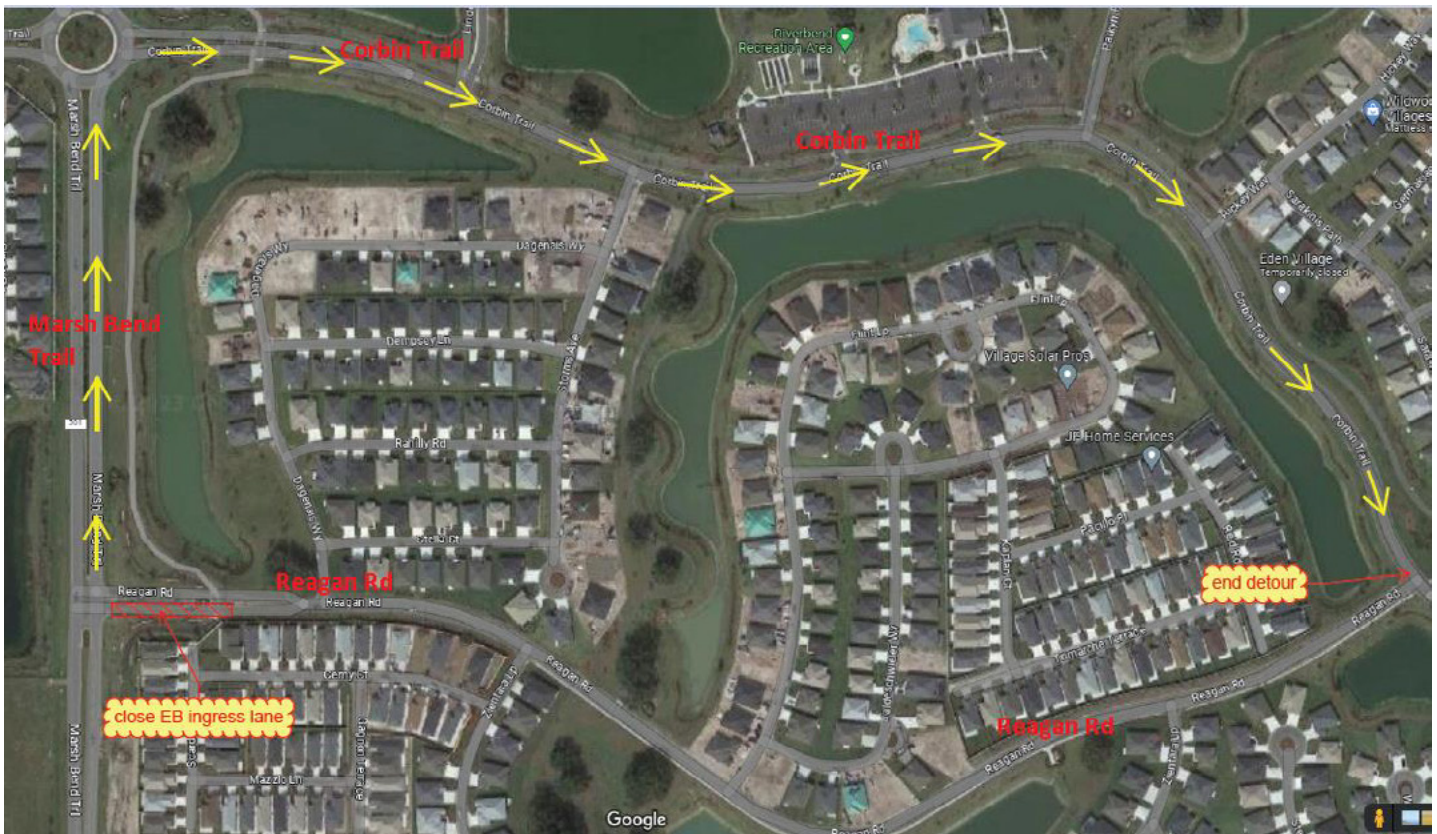

Contact: Bradley Arnold
County Administrator
(352) 689-4400

bradley.arnold@sumtercountyfl.gov

Reagan Road Entrance from Marsh Bend Trail Closure

Sumter County, FL – Reagan Road entrance at Marsh Bend Trail will be closed for reconstruction of stormwater pipes for two weeks beginning Monday, July 31, 2023. The right and left turn from Marsh Bend Trail onto Reagan road will be closed.

The best detour for those needing to enter Reagan Road is to go North on Marsh Bend Trail and then take a right onto Corbin Trail.

Detour signs will be setup on Sunday, July 30. Please follow the posted detour signs. The detour is expected to continue through the middle of August.

Please use caution when traveling Marsh Bend Trail and Reagan Road, and follow the traffic signs to protect yourselves and construction workers.

The Villages®
Community Development Districts
District 8

**NOTICE OF VACANCIES
DISTRICT NO. 8 BOARD OF SUPERVISORS**

The Village Community Development District No. 8 Board of Supervisors is seeking applicants who are interested in filling Seat 1 and Seat 2, which were recently vacated due to the passing of existing Board Supervisors. The remainder of the existing four (4) year term for the vacated Seats will expire in November 2024.

Any interested applicants must be a qualified elector which is defined by Florida Statute 190 as "any person at least 18 years of age who is a citizen of the United States, a legal resident of Florida and of the District, and who registers to vote with the Supervisor of Elections in the county in which the district land is located". To obtain additional information or request an application, you may contact Jennifer Farlow, District Clerk, at 352-751-3939 or obtain a copy of the application on [DistrictGov.org](https://www.DistrictGov.org) or on the following page.

Applications must be submitted to the District Clerk no later than 5 PM on Tuesday, August 8, 2023 at the District Office, 984 Old Mill Run, The Villages.

The Board of Supervisors will interview applicants during a Board Meeting to be held on Friday, August 18, 2023 at 11:00 AM at SeaBreeze Recreation, 2384 Buena Vista Blvd., The Villages, FL.

****The Board of Supervisors welcome interested applicants to include a resume with their experience as an attachment to the application****

IRRIGATION SYSTEM FLUSHING: DISTRICTS 5-8

In April 2023, our Utilities Operations and Maintenance contractor (Jacobs) began flushing the Villages Water Conservation Authority (VWCA) irrigation system located in Districts 5-8. Flushing prevents the accumulation of small particles and build-up, which can lead to plugging issues in our irrigation system. Due to the size of the VWCA system, the area has been divided into 90 distinct flushing zones. Once started, this project will take approximately 50 weeks to work through all 90 zones.

As the flushing takes place, you will see the Jacobs team opening fire hydrants and flushing irrigation lines only into the roadway. Work hours will be from 8 am to 5 pm. Information will be updated regularly on the District's website on when you can expect to see the Jacobs team in action in your area. Please continue to check the Weekly Bulletin or the [What's Happening](#) page on [DistrictGov.org](#) for updates.

This maintenance work will not have any effects on your drinking water quality nor pressure. This is a proactive effort to maintain your irrigation system.

The safety of residents and contractor personnel is of the utmost importance. We are requesting everyone to abide by all barricades and warning signs and to avoid the active work area for anything other than access to your property.

Thank you for your cooperation and patience as we improve our irrigation system. If you have any questions or would like additional information, please contact District Utilities at 352-753-4022.

See below for the schedule and map. Please note that the schedule and zone are tentative based on operational conditions encountered.

[Click Here To View a Map of the Flushing Zones](#)

A tentative schedule of the areas impacted in the upcoming week:

Zone Flushed	Duration	Start	Finish
41	2 days	Friday 7/28/23	Monday 7/31/23
42	2 days	Tuesday 8/1/23	Wednesday 8/2/23
