## Annual Plantings

Annual plants or “Seasonal Color” are plants that grow from seed to flower, produce seeds, and die within a single growing season.

On District property within The Villages, landscape contractors install around 2 million (and counting) annuals every year, replanting by hand every quarter to coordinate with Florida weather and seasons for full color appearance throughout the year.

These annuals are contract grown in nurseries around the state of Florida. Once the plants are ready, it is crucial that they be installed quickly to avoid becoming root bound in the container and shortening their life expectancy.

We do not specify the species as long as they are plants proven to work in our area and adhere to the design intent within The Villages. This provides a change of color as you move throughout The Villages.

# IRRIGATION SYSTEM FLUSHING: DISTRICTS 5-8

In April 2023, our Utilities Operations and Maintenance contractor (Jacobs) began flushing the Villages Water Conservation Authority (VWCA) irrigation system located in Districts 5-8. Flushing prevents the accumulation of small particles and build-up, which can lead to plugging issues in our irrigation system. Due to the size of the VWCA system, the area has been divided into 90 distinct flushing zones. Once started, this project will take approximately 50 weeks to work through all 90 zones.

As the flushing takes place, you will see the Jacobs team opening fire hydrants and flushing irrigation lines only into the roadway. Work hours will be from 8 am to 5 pm. Information will be updated regularly on the District's website on when you can expect to see the Jacobs team in action in your area. Please continue to check the Weekly Bulletin or the [What's Happening](#) page on [DistrictGov.org](#) for updates.

This maintenance work will not have any effects on your drinking water quality nor pressure. This is a proactive effort to maintain your irrigation system.

The safety of residents and contractor personnel is of the utmost importance. We are requesting everyone to abide by all barricades and warning signs and to avoid the active work area for anything other than access to your property.

Thank you for your cooperation and patience as we improve our irrigation system. If you have any questions or would like additional information, please contact District Utilities at 352-753-4022.

See below for the schedule and map. Please note that the schedule and zone are tentative based on operational conditions encountered.
