# Government Day 2023 Recap

---

The 26th Government Day held on November 4, 2023 was a huge success! With over 60 vendors and around 800 residents in attendance, the rooms were filled with helpful resources and knowledgeable individuals ready to answer questions and provide valuable information. District Staff was present and enjoyed interacting with the many residents in attendance and various District Departments displayed information about the services they provide throughout the community. Handouts, contact information and many promotional

items were handed out along with tons of other giveaways. Residents who attended were given the option to complete a survey to offer their feedback on the event and other District services and the results will be used to continue making Government Day such a success. Did you miss this year's Government Day? Next year's event will be held on Saturday, November 2, 2024! Details will be provided leading up to the event so look out for more information - we're looking forward to seeing you there!

# The Villages Public Safety Department Shares Exciting Fire Station News!

We are thrilled to share some exciting news with you! Construction has officially begun on our new Fire Station 46, located on Warm Spring Boulevard, close to the Village of Fenney. The entire Villages Public Safety Department (VPSD) team is buzzing with enthusiasm, as this marks a significant milestone in our commitment to enhancing public safety and response times in our beloved community.

This new fire station is strategically located to provide more comprehensive coverage in the denser portions of The Villages, ensuring that we have the rapid and effective response our community deserves in times of need. We are dedicated to making the safety of our residents a top priority, and this location will significantly contribute to achieving that goal.

Furthermore, this new station will enable us to support other stations

and crews for high-impact events, such as EMS calls, structure fires, motor vehicle accidents, hazardous materials incidents, and more, with minimal travel time. This means that we can respond faster and more efficiently when we are needed most.

Fire Station 46 is projected to be completed by the last quarter of 2024; with this addition, The Villages Public Safety Department remains well-prepared for the future, ensuring that our community remains safe and secure.

We would like to thank The District and our residents for your continued support and trust in the Villages Public Safety Department. We can't wait to celebrate the completion of Fire Station 46 with you and continue our journey toward a safer and stronger community.

*- Brian Twiss, Fire Chief*

## Irrigation Schedules In The Villages

Irrigation schedules vary by lot number in The Villages and each can be found online at [TheVillagesWaterWisdom.com](http://TheVillagesWaterWisdom.com). The Water Wisdom website also provides details on Florida Friendly Landscaping, water conservation tips, how much water is enough, recommended irrigation zone run times and much more.

- In Village Center Community Development District – Lady Lake/Lake County and in Districts 1 – 4, lawn watering depends on whether you have an odd or even numbered address and the time of year. For

Districts 5–14, lawn watering depends on the lot number and time of

year. See the following pages for irrigation schedules in The Villages.

- Watering may only occur before 10 a.m. or after 4 p.m. on the scheduled days and times.
- Certain exemptions are available, such as allowances for new plant material.
- There are no restrictions on fountains, car washing and pressure washing. However, it is important to be as efficient as possible, such as using a shut-off nozzle on the hose, so water isn't wasted.

# IRRIGATION SYSTEM FLUSHING: DISTRICTS 5-8

In April 2023, our Utilities Operations and Maintenance contractor (Jacobs) began flushing the Villages Water Conservation Authority (VWCA) irrigation system located in Districts 5-8. Flushing prevents the accumulation of small particles and build-up, which can lead to plugging issues in our irrigation system. Due to the size of the VWCA system, the area has been divided into 90 distinct flushing zones. Once started, this project will take approximately 50 weeks to work through all 90 zones.

As the flushing takes place, you will see the Jacobs team opening fire hydrants and flushing irrigation lines only into the roadway. Work hours will be from 8 am to 5 pm. Information will be updated regularly on the District's website on when you can expect to see the Jacobs team in action in your area. Please continue to check the Weekly Bulletin or the [What's Happening](#) page on [DistrictGov.org](#) for updates.

This maintenance work will not have any effects on your drinking water quality nor pressure. This is a proactive effort to maintain your irrigation system.

The safety of residents and contractor personnel is of the utmost importance. We are requesting everyone to abide by all barricades and warning signs and to avoid the active work area for anything other than access to your property.

Thank you for your cooperation and patience as we improve our irrigation system. If you have any questions or would like additional information, please contact District Utilities at 352-753-4022.

See below for the schedule and map. Please note that the schedule and zone are tentative based on operational conditions encountered.
