Villagers Provide Many with Happier Holidays

The Recreation & Parks Department partnered with a number of organizations to assist with the collection of holiday gifts and food in an effort to make the holidays more special for all.

1. Angels of The Villages

For over 27 years The Villages Recreation & Parks Department has been partnering with Lake Sumter Families Foster Parent Association in sponsoring Angels of The Villages. This program helps to provide happy Holidays for foster children throughout Lake and Sumter Counties.

2. Silver Trefoil Girl Scout Alumnae's Pajama & Book Drive

For over 20 years former Villages Girl Scouts have collected new pajamas and books for homeless children. This year, over 10,500 pairs of pajamas and 6,000 books were collected.

3. Lake Sumter Children's Advocacy Center

The mission of the Lake Sumter Children's Advocacy Center is to provide a child-friendly, community-based facility where a child victim

can be safely interviewed, provided with crisis counseling, given medical exams and long-term specialized therapy when needed. We work together with agency representatives to provide child abuse victims with all necessary services in a single location. Numerous toys and other items were collected.

4. Toys for Tots

The Villages chapter of the Marine Corps League placed collection boxes at all recreation centers to help provide toys to community children and over 3,000 families were served in Lake and Sumter Counties.

Registration for Monthly Socials Available Online

The Recreation & Parks Department offers monthly socials to help Villagers enjoy the companionship of others in a friendly, fun atmosphere, as well as fulfilling the recreational, educational, emotional or physical needs of the participants. Depending on the division, Community Watch has a wide range of services that we provide every day. We strive to do the best possible job in all the services that we offer.

The Community Watch staff that residents come in contact with the most are the Gate Attendants that you see when you come into The Villages. Their duties include welcoming residents and visitors, regulating traffic

Dispatchers assist with searching for missing residents, documenting all radio and telephone calls and more. Dispatchers also serve as an after-hours link to all District Offices.

Christmas Tree Safety

As you deck the halls this holiday season, be fire smart. A small fire that spreads to a Christmas tree can grow large very quickly.

PICKING THE TREE

- Choose a tree with fresh, green needles that do not fall off when touched.

PLACING THE TREE

- Before placing the tree in the stand, cut 2" from the base of the trunk.
- Make sure the tree is at least three feet away from any heat source, like fireplaces, radiators, candles, heat vents or lights.
- Make sure the tree is not blocking an exit.
- Add water to the tree stand. Be sure to add water daily.

LIGHTING THE TREE

- Use lights that are listed by a qualified testing laboratory. Some lights are only for indoor or outdoor use.
- Replace any string of lights with worn or broken cords or loose bulb connections. Read manufacturer's instructions for number of light strands to connect.
- Never use lit candles to decorate the tree.
- Always turn off Christmas tree lights before leaving home or going to bed.

After Christmas

Get rid of the tree after Christmas or when it is dry. Dried-out trees are a fire danger and should not be left in the home or garage, or placed outside against the home.

Check with your local community to find a recycling program.

Bring outdoor electrical lights inside after the holidays to prevent hazards and make them last longer.

FACTS

- ! **Almost one third** of home Christmas tree fires are caused by electrical problems.
- ! Although Christmas tree fires are not common, when they do occur, they are more likely to be serious.
- ! A heat source too close to the tree causes more than **one in every five** of the fires.

IRRIGATION SYSTEM FLUSHING:

DISTRICTS 5-8

In April 2023, our Utilities Operations and Maintenance contractor (Jacobs) began flushing the Villages Water Conservation Authority (VWCA) irrigation system located in Districts 5-8. Flushing prevents the accumulation of small particles and build-up, which can lead to plugging issues in our irrigation system. Due to the size of the VWCA system, the area has been divided into 90 distinct flushing zones. Once started, this project will take approximately 50 weeks to work through all 90 zones.

As the flushing takes place, you will see the Jacobs team opening fire hydrants and flushing irrigation lines only into the roadway. Work hours will be from 8 am to 5 pm. Information will be updated regularly on the District's website on when you can expect to see the Jacobs team in action in your area. Please continue to check the Weekly Bulletin or the [What's Happening](#) page on [DistrictGov.org](#) for updates.

This maintenance work will not have any effects on your drinking water quality nor pressure. This is a proactive effort to maintain your irrigation system.

The safety of residents and contractor personnel is of the utmost importance. We are requesting everyone to abide by all barricades and warning signs and to avoid the active work area for anything other than access to your property.

Thank you for your cooperation and patience as we improve our irrigation system. If you have any questions or would like additional information, please contact District Utilities at 352-753-4022. See below for the schedule and map. Please note that the schedule and zone are tentative based on operational conditions encountered.
